

# MobileBytes

## RESTAURANT TECHNOLOGY RE-ENVISIONED

### Self Order Kiosk

Reduce labor costs while serving more guests with MobileBytes Self Order Kiosk.

### Tableside Ordering

Increase check averages and turn tables faster with Tableside Ordering & Payment.

### Online Ordering

Attract new customers and increase repeat business with MobileBytes Online Ordering.

### EMV Processing

Chargeback liability has shifted. EMV chip card technology protects you.

### Guest App

Enhance any restaurant experience with MobileBytes Guest Engagement App.

### Kitchen Display

When communication and speed are paramount, MB KDS can make your kitchen more efficient.

### Time & Attendance

Time & Attendance with photo verification makes tracking employee time simple.

### Rewards (Guest App)

Guests can now keep track of their loyalty Rewards from an app!

### Host Waitlist

Send text messages to your guests mobile phones when tables are ready!

### Cloud Management

Manage your restaurants from anywhere with cloud-based technology.

### Scan to Pay (Guest App)

Now your guests can scan the QR code on their receipt to Pay and earn Rewards.

### Delivery Dispatch

If your restaurant experiences a high volume of delivery orders, Delivery Dispatch is perfect for you.

### Local Sales & Support

We offer a complete installation and customer service that is second to none!

### Skip the Line (Guest App)

Engage guests while preventing loss of revenue due to long lines with Skip the Line!

### Guest Facing Display

Show your guests a customer friendly version of what their cashier is doing.
