

7.5% Tax Change Guide

Heartland POS / MobileBytes

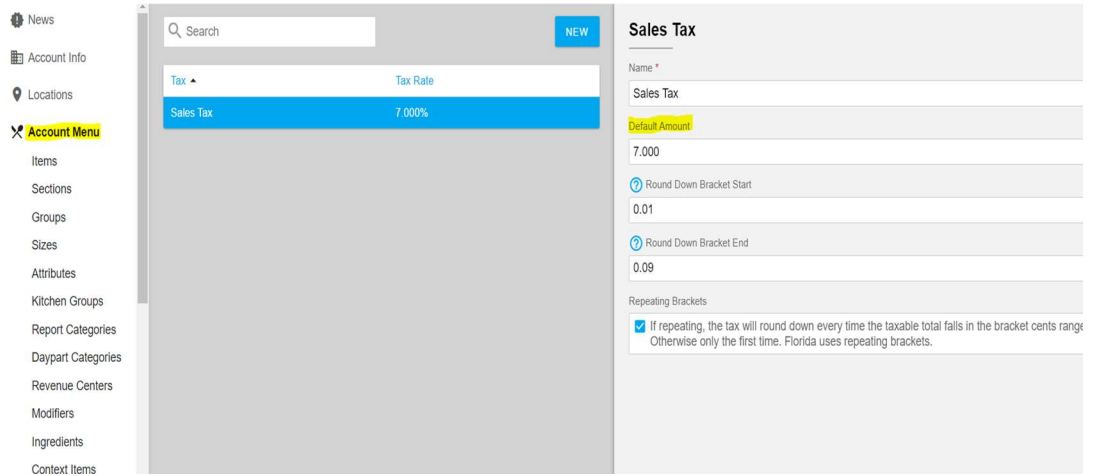

Log into your HRPOS / MobileBytes Admin Portal

Navigate to Account Menu, then Taxes

Click on Sales Tax, sales tax programming will pop up on the right side

Change the Default Amount to 7.50

Click Save at the bottom, and then click the arrow pointing up at the top of your screen to publish changes to your POS

The screenshot displays the 'Sales Tax' configuration interface. On the left, a sidebar menu lists various account settings, with 'Account Menu' highlighted. The main content area features a table with two columns: 'Tax' and 'Tax Rate'. The 'Sales Tax' entry is selected, showing a rate of 7.000%. To the right, the 'Sales Tax' configuration panel is visible, containing fields for 'Name' (Sales Tax), 'Default Amount' (7.000), 'Round Down Bracket Start' (0.01), and 'Round Down Bracket End' (0.09). A checkbox for 'Repeating Brackets' is checked, with a note explaining that the tax will round down every time the taxable total falls in the bracket cents range, otherwise only the first time. Florida uses repeating brackets.

Tax	Tax Rate
Sales Tax	7.000%

Sales Tax

Name *
Sales Tax

Default Amount
7.000

Round Down Bracket Start
0.01

Round Down Bracket End
0.09

Repeating Brackets
☒ If repeating, the tax will round down every time the taxable total falls in the bracket cents range. Otherwise only the first time. Florida uses repeating brackets.
